## TEACHING & MENTORSHIP

### Teaching

**Principal Instructor** at UT Austin

Summer 2022

Language and Computers (LINS313)

Introductory course to computational studies of language. Summer course over 5 weeks with 3 students. Designed and developed lectures, assignments, discussion topics, and supervised final projects over last 2 weeks.

## Teaching Assistant

I served as TA on the following courses, where my responsibilities included holding office hours, grading assignments, and occasional substitute lectures:

- |  |             |
|--|-------------|
| • Machine Learning Toolbox for Text Analysis (LIN373N)             | Spring 2021 |
| • Analyzing Linguistic Data and Programming for Linguists (LIN350) | Spring 2020 |
| • Introduction to Computational Linguistics (LIN353C)              | Fall 2019   |
| • Introduction to Computational Linguistics                        | Fall 2018   |
| • Data Structures and Algorithms for Biology                       | Fall 2016   |

## Mentorship

Matianyu Zang (undergraduate at Brown University)

Summer 2023–Present

*Intergroup Bias dynamics & discourse structure*

## EMPLOYMENT

The New York Times

Summer 2023

Data Science Intern

Built a framework using hierarchical (mixed effects) linear modeling for offline evaluation of novel user and article features to inform model building in algorithmic recommendations. Delivered potential features that could **boost engagement up-to 2%** while diversifying recommendations.

Amazon

Summer 2021

Alexa Applied Scientist Intern

Implemented an unsupervised method for detecting data drift in NLU models, and validated the approach on simulated and customer data. Received return internship offer for summer 2022.

## PROFESSIONAL SERVICE

### Organizing Committee

South by Semantics Workshop

2022–24

I am co-organizing [a series of talks](#) on semantics, computation and philosophy of language. Our goal is to provide a forum for emerging scholars with UT Austin's rich community of language researchers, and to foster collaboration and dialogue through receptions and dinners organized with the talks.

## Texas Linguistics Society (TLS) Conference

2021– 22

TLS is an annual student-run academic conference by the Department of Linguistics at UT Austin which includes presentations in all areas of linguistics. I served on the organizing committee and was involved in reviewing and assigning submissions for review, website design, scheduling, logistics for a fully virtual conference, and chairing keynote sessions and talks.

### APPS

**DeTeXt:** I built an open source app for iOS, iPadOS and macOS that predicts the best LaTeX commands corresponding to hand-drawn symbols using deep neural networks. Built using SwiftUI, Combine, PencilKit and CoreML, the app has over 10,000 downloads.
