RESEARCH INTERESTS

Computational Linguistics & Social Science, Natural Language Processing

EMPLOYMENT

Ithaca College August 2024–Present
Assistant Professor of Computer Science

The New York Times June–August 2023
Data Science Intern

Amazon May–August 2021
Alexa Applied Scientist Intern

EDUCATION

The University of Texas at Austin 2019–2024
Ph.D. Computational Linguistics GPA: 3.92 / 4
Thesis: Modeling Intergroup Bias in Online Conversation.
Committee: Jessy Li, David Beaver, Kyle Mahowald & Malihe Alikhani

University of Rochester 2017–2019
M.S. Computational Linguistics GPA: 3.75 / 4
Thesis: Models of Generic, Habitual and Episodic Statements.
Advisor: Aaron Steven White

Indian Institute of Technology Madras 2012–2017
B.Tech & M.Tech Biological Engineering GPA: 8.68 / 10

TALKS

1. “Diving into LLMs like ChatGPT: How do they work?” (May 2025). [Hopshire’s Science & Suds](#) (Public outreach). Ithaca, NY.
2. “Computational Linguistic Models of Social Identity” (Feb. 2024). Invited talk. Ithaca College.
3. “Computational Models of Social Meaning” (Jan. 2024). Invited talk. Georgetown University.
4. “[Modeling Generalized Intergroup Bias](#)” (May 2023). Conference talk at EACL 2023.
5. “[Help! Need Advice on Identifying Advice](#)” (Nov. 2020). Conference talk at EMNLP 2020.
6. “Decomposing Generalization” (July 2020). Conference talk at ACL 2020.

TEACHING & MENTORSHIP

Teaching

Programming languages	Fall 2024
<i>Principal Instructor at Ithaca College</i>	COMP321
Principles of Computer Science	Fall 2024
<i>Principal Instructor at Ithaca College</i>	COMP171
Language and Computers	Summer 2022
<i>Principal Instructor at UT Austin</i>	LINS313

Teaching Assistant

• Machine Learning Toolbox for Text Analysis (LIN373N)	Spring 2021
• Analyzing Linguistic Data and Programming for Linguists (LIN350)	Spring 2020
• Introduction to Computational Linguistics (LIN353C)	Fall 2019
• Introduction to Computational Linguistics	Fall 2018
• Data Structures and Algorithms for Biology	Fall 2016

Mentorship

Suryash Malviya (undergraduate at Ithaca College)	Spring 2025–present
<i>GPU Programming</i>	
Matianyu Zang (undergraduate at Brown University)	Summer 2023–Spring 2024
<i>Intergroup Bias dynamics & discourse structure</i>	

SKILLS

Programming Languages: Python, Swift, Racket, Javascript, R, SQL, LISP

Tools & Frameworks: pyTorch, Huggingface, Tensorflow, Keras, scikit-learn, statsmodels, SciPy, Pandas, SwiftUI, CoreML, Google Cloud Platform (GCP), BigQuery, lme4, Weights & Biases

Languages: English (native), Tamil (native), Hindi (intermediate)

PROFESSIONAL SERVICE

NASSLLI summer course

Summer 2025

I designed and taught a week-long summer course on Natural Language Processing & Computational Social Science (CSS) with my colleague [Laura Biester](#) at [NASSLLI 2025](#), held at University of Washington, Seattle. The course focused on bridging theoretical concepts and engineering principles in NLP towards writing research papers in CSS, using insights from our past papers.

Tech Innovation Summer Academy (TISA)

Summer 2025

TISA is a one-week summer program that introduces students to computer science with a focus on understanding through building applications and tools. I served on the organizing committee helping with planning and organization, and designed course materials for sessions on Machine Learning and Artificial Intelligence.

South by Semantics Workshop

2022–24

I co-organized a series of talks on semantics, computation and philosophy of language. Our goal was to provide a forum for emerging scholars with UT Austin's rich community of language researchers, and to foster collaboration and dialogue through social events organized with the talks.

Texas Linguistics Society (TLS) Conference

2021– 22

TLS is an annual student-run academic conference by the Department of Linguistics at UT Austin which includes presentations in all areas of linguistics. I served on the organizing committee and was involved in reviewing and assigning submissions for review, website design, scheduling, logistics for a fully virtual conference, and chairing keynote sessions and talks.

Reviewer

ACL ARR 2023–present, EMNLP 2023–24, ACL 2023, *SEM 2023–25, SIGDIAL 2022–23

Volunteer

[Underpaid@UT](#) (2023-24)

APPS & PROJECTS

diversity: Contributed to an open-source package for evaluating the diversity of LLM outputs; I implemented batching and performance optimizations that made evaluations up to 10x faster.

DeTeXt: I built an open source app for iOS, iPadOS and macOS that predicts the best LaTeX commands corresponding to hand-drawn symbols using deep neural networks. Built using SwiftUI, Combine, PencilKit and CoreML, the app has over 10,000 downloads.

AWARDS

NASSLI Student Grant (800 USD)	Summer 2022
COLA Supplemental Graduate School Fellowship (5000 USD)	Spring 2020
Silver medal at International Genetically Engineered Machine (iGEM)	Fall 2016
Indian Biological Engineering Competition (iBEC) grant (15,000 USD)	Fall 2016
National BIRAC-IdeaThon on Antimicrobial Resistance Finalist	Fall 2016
Second runner up in 3M-CII Young Innovators Challenge	Spring 2015
