## PROFESSIONAL SERVICE

*Organizing Committee*

### Tech Innovation Summer Academy (TISA)                    Summer 2025

TISA is a one-week summer program that introduces students to computer science with a focus on understanding through building applications and tools. I served on the organizing committee.

### South by Semantics Workshop                              2022–24

I co-organized a series of talks on semantics, computation and philosophy of language. Our goal was to provide a forum for emerging scholars with UT Austin's rich community of language researchers, and to foster collaboration and dialogue through social events organized with the talks.

### Texas Linguistics Society (TLS) Conference               2021– 22

TLS is an annual student-run academic conference by the Department of Linguistics at UT Austin which includes presentations in all areas of linguistics. I served on the organizing committee and was involved in reviewing and assigning submissions for review, website design, scheduling, logistics for a fully virtual conference, and chairing keynote sessions and talks.

## APPS

**DeTeXt**:  I built an open source app for iOS, iPadOS and macOS that predicts the best LaTeX commands corresponding to hand-drawn symbols using deep neural networks. Built using SwiftUI, Combine, PencilKit and CoreML, the app has over 10,000 downloads.
